Other Activities and Experiences

During my fifth year of high school, I had the opportunity to participate in the GCMUN project, Global Citizens Model United Nation, a Model UN conference that takes place in New York. With this conference, held entirely in English, we students had the opportunity to simulate the work done by the United Nations, interpreting the role of the ambassadors of the different member countries. Thanks to this experience, I had the opportunity to interact and cooperate with people from all over the world and to perfect my skills of teamwork, problem solving and organization.

I authorize the processing of personal data according to current legislation.
